https://github.com/efeliza00

As a computer engineering graduate transitioning into web development, I bring strong problem-solving skills to frontend programming. I'm currently building my expertise in modern JavaScript, React, and responsive design while applying my technical foundation to create efficient, user-friendly interfaces. Every project helps me bridge the gap between software principles and practical web development.

EDUCATION

Bachelor of Science in Computer Engineering
STI College of Surigao,2022

SKILLS

- **ReactJS**
- **NextJS**
- **Typescript**
- **Prisma**
- **Mysql**
- **Tailwindcss**
- **ShadcnUi**
- **GitHub**
